Modern lubricants are exposed to highly demanding requirements and must guarantee optimum protection for all types of stresses. Using chemical materials of a lower quality reduces the service life of these drive units and can lead to a total failure of the system. VAICO oils & chemicals are MADE IN GERMANY and have been specially adapted to the requirements mentioned above. They therefore offer perfect protection for motors, gears and diverse hydraulic systems. Base oil produced using the latest refinery technology and an innovative additive matched to this guarantee that modern practical requirements can be met. VAICO products are characterised by very good lubrication characteristics at both high and low temperatures, and extremely strong wear protection in all operating conditions. The VAICO quality brand supplies chemical

materials in accordance with the original approvals and offers good value and high quality alternatives to OEM products for all common European brands, in the following product groups:

- Engine oil
- Transmission oil
- Coolant antifreeze
- Hydraulic oil
- Brake fluid
- Clean screen fluid
- AdBlue
- Additive
- Hand washing paste
- Care products - etc.

## SYMPTOMS

- Warning lamp lights

## REASONS FOR FAILURE

- Fill level too high/too low
- Wrong chemical material
- Change interval has been exceeded

## CONSEQUENTIAL DAMAGES

- Serious mechanical damage
- Increased wear

## RECOMMENDED BY THE EXPERTS

- Have the fill level checked regularly
- Use chemical materials recommended by the manufacturer

## VAICO OILS & CHEMICALS

You can find more information at [www.autoteile.de](http://www.autoteile.de)

- Targeted additives guarantee optimal lubrication
- Approved in accordance with OEM standards
- Supply in the original Mauser container with leak-proof induction seal
