# CAR TRAILERS

## THE DEMAND FOR CAR TRAILERS IS ON THE RISE

750 kg class car trailers are becoming increasingly popular. The fact that most cars are permitted and able to tow them - and that, in the main, the younger generation in particular does not need to amend their driving licence to be able to use them - means that trailers are a much sought-after transport option among many German citizens.

VIEROL is expanding its well-known portfolio to include sought-after "transport" products – in future, this will also include products for caravans and motor homes, and car accessories.

For example, electronic components such as car adapters and lighting products are marketed under the VEMO quality brand. The VAICO product line is being expanded to include mechanical components such as stabilizers, supports, and even breakaway cables.

## OLE OETKEN & CARSTEN HAMPEL

Our two specialists for all things transport, caravans, and leisure.

**Brake cables and breakaway cables 1 m**

Additional securing for the trailer, steel cable with hook and eye.  
Length: 1 m

AN

# RECREATIONAL VEHICLES - ATTRACTIVE AND **GROWING MARKET**

*"The number of recreational vehicles and trailers being registered has climbed to record highs"*

More and more people are going on camping holidays. The number of people registering caravans and motorhomes is on the rise. The interest in going on camping holidays and in travelling with your accommodation in tow has seen something of a revival in the wake of the global pandemic.

#### **HOLIDAYING DURING THE PANDEMIC**

The number of new motorhome and caravan registrations as of May 2020 is testament to the popularity of camping holidays during the pandemic. For example, travelling with one's "own four walls" in tow was considered to be particularly safe in 2020 and 2021 respectively.

#### **OLE OETKEN & CARSTEN HAMPEL**

Our camping, caravan, transport, and leisure specialists.

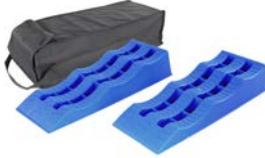

**Set of 2 levellers with bag**

Levellers are ideal for stabilising your caravan or motorhome.

The levellers are suitable for use on any surface.

Includes a practical storage bag

### eCARAVANNING – AN INDUSTRY FOLLOWING THE TREND

Many camping novices prioritise one thing over all others: enjoying precious time with their family in a safe way and without any hassle. Your classic holiday - just enhanced by the technology of tomorrow. After all, it's true that many novices are scared of handling gas. This is something to which manufacturers of camping vehicles have become privy and that is why they are releasing an ever-increasing number of gas-free vehicles.

Of course, a solid and reliable electrical supply is essential for regular and gas-free vehicles alike. VEMO – a brand which can draw on a wealth of experience in automotive electronics – provides a solution to this issue with its high-quality product line.

### Bringing order to leisure time

They have long been popular among campers: Organisers for small luggage or for going shopping. These practical helpers have one or more compartments and are made of a sturdy and robust material. Small side pockets also provide campers with additional storage space for small items as well as those things that need to be accessed quickly and easily.

Innovative eyelets let you secure these foldable helpers into place wherever you need them.

VAICO holds three different sizes - so everyone can find their little helper for everyday life!
