

AIR MASS SENSOR

13302

Air mass sensors are used in vehicle engines to measure the engine's load conditions and is therefore an important component for engine air supply and exhaust gas reduction. The VEMO separate **plug-in sensor V10-72-1025** is a cost-effective replacement solution.

The old measuring tube is being reused and only the defective air mass sensor is replaced. To do so, the two fastening screws shall be loosened and the new sensor can be inserted. **Please ensure that the ignition is switched off when disconnecting and connecting the plugs. Otherwise the voltage spikes may destroy electronic components.** The plug-in sensor may be used as a replacement solution for the below vehicle models:

MANUFACTURER	APPLICATIONS	MOTOR CODE
AUDI	A3, S3	AGR, ALH, ATD, AXR, AHF, ASV, ASZ, BKC
AUDI	A4, 8D	AFF, AHH, AHU, AFN, AJM, ATJ
AUDI	A4, S4	AVB, AVF, AWX
AUDI	A6, S6	AFN, AVG, AJM, AVF, AWX
FORD	Galaxy	AFN, AUY
ŠKODA	Fabia, Octavia (Kombi)	ATD, ASZ
SEAT	Alhambra	ANU, AUY, AFN, ASZ
SEAT	Ibiza, Cordoba, Cordoba Vario	AFN, AGR, ALH, ASV, ASZ
SEAT	Toledo, Leon	ASZ, AGR, ALH, ASV, AHM, ARL, AFN
SEAT	Inca	ALH
VW	Polo Classic	AGR, ALH, ASV, AHU, AFN, ATD, AXR
VW	Golf (Cabrio), Jetta	AHU, AFN
VW	Golf, Bora	ALH, ATD, AXR, AHF, ASV, AUY, ASZ, ARL
VW	New Beetle (Cabriolet)	ALH, ATD, AXR
VW	Caddy	ALH, AHU
VW	Passat (Allrad)	AJM, AHH, AHU, AVB, AFN, ATJ, AVB, AVF, AWX
VW	Sharan	AUY, ASZ, AFN, ANU
VW	Transporter, Caravelle, California, Multivan	AJT
VW	Transporter (Synchro), Multivan, California (Coach), Bus, Caravelle	ACV, AXL, AHY

V10-72-1025
